

## **2in1 RatSpreader™**

Innovative tool allows for either powerful jamb spreader action or door pushing force from a single tool! Unique snap together design converts the Ferretool™ into a full width jamb spreader. Tool is designed to spread wood and metal door jambs.

Compact and easy to use, the 2in1 RatSpreader™ adjusts from a small 26" doorjambs up to industrial size 41" doorways. Easy adjustment of the spreader along with a foot actuated 4-ton hydraulic pump and a 5' hose, allows the user to be away from the doorway and the use of both hands during operation.
